| CONTACT INFORMATION | Janelia Research Campus Advanced Imaging Center 19700 Helix Drive Ashburn, VA 20147 USA | Phone: +1 (202) 527-8121 E-mail: boehmu@janelia.hhmi.org Home: ulrikeboehm.org |
| SUMMARY | Physicist, microscope builder & data scientist with a passion for community building/engagement, outreach, and teaching: I have over ten years' experience in building and running advanced light microscopy systems, analysis of microscopy data, and development of image acquisition & analysis workflows. Furthermore, I am highly engaged in community building/engagement, outreach, and teaching activities focusing on community service, women/diversity in science, open science, and microscopy for more than 15 years. | |
| RESEARCH INTERESTS | <ul style="list-style-type: none"> • Microscope design, development, and application across a wide range of biological models • Development of image and data processing and analysis tools • Machine learning and its application in microscopic image analysis • Statistical methods for large datasets • Open software and hardware tools for imaging and microscopy | |
| POSITIONS | <p>Research Specialist 2019 - present Janelia Research Campus, Advanced Imaging Center, Ashburn, VA, USA</p> <ul style="list-style-type: none"> • Handling and troubleshooting of advanced light microscopes (iPALM, Lattice Light Sheet Microscope, SiMView Light Sheet Microscope, Aberration Corrected Multifocal Microscope, MOSAIC, FIB-SEM, cryo-SIM, etc), sample preparation and image analysis • Support of (inter)national visitors during technical consultations and their imaging sessions at the microscopes of Janelia's Advanced Imaging Center • Development and implementation of new image and data analysis strategies for users from around the world • Review of proposal drafts, proposals and grants submitted to the Advanced Imaging Center • Design and realization of microscopy and data analysis workshops and conferences <p>Postdoctoral Research Fellow 2017 - 2018 National Institutes of Health, National Cancer Institute, Bethesda, MD, USA</p> <ul style="list-style-type: none"> • Design and construction a microscope for live-cell 5-color single-molecule transcription imaging in eukaryotic cells at high resolution in time and space to capture promoter-enhancer interactions • Development of advanced fluorescence labeling strategies for the genome based on dCas9 (CAS-FISH) • Computational modeling and data analysis of 4D genome data <p>Ph.D. Student 2010 - 2016 Max Planck Institute for Biophysical Chemistry, Göttingen, Germany Department of NanoBiophotonics (Prof. Dr. Stefan W. Hell) <i>Dissertation title:</i> "4Pi-RESOLFT nanoscopy" <i>Advisor:</i> Prof. Dr. Stefan W. Hell</p> <ul style="list-style-type: none"> • Design and construction of a 4Pi-RESOLFT nanoscope, including optical and acquisition system. Controlling software was also developed. • System / sample testing and optimization <p>Master Student 2009 Max Planck Institute of Biochemistry, Martinsried/Munich, Germany Department of Molecular Structural Biology (Prof. Dr. Wolfgang Baumeister)</p> | |

Dissertation title: “Correlative microscopy at liquid nitrogen temperature”

Advisors: Dr. Jürgen M. Plitzko, Prof. Dr. Wolfgang Baumeister

- Development and testing of a cryo transfer shuttle (CryoStage²) for the reliable transfer of amorphous frozen-hydrated samples from a fluorescence to an electron microscope for correlative microscopy
- Further development and testing of the software based on scale-invariant feature transform (SIFT) for the correlative microscopy approach

Undergraduate Researcher - various research assistant positions 2005 - 2008

- Evaluation of the mechanical properties of actin filaments in combination with different actin binding proteins at the Physics Department of the Technical University of Munich, Germany - Prof Andreas Bausch (2008)
- Study of HEK cells with FLIC-microscopy at the Max Planck Institute of Biochemistry, Martinsried, Germany - Prof Peter Fromherz (2008)
- Analysis of Multi-SANS data (with MIRA) and data of Cytochrom C (with the Neutron Spin Echo RESEDA) at the Research Neutron Source Heinz Maier-Leibnitz (FRM II), Munich, Germany - Dr Robert Georgii and Prof Peter Böni (2007)
- Study of surfaces and DNA with an AFM at the Physics Department of the Technical University of Munich, Germany - Prof Thorsten Hugel (2006)
- Performance evaluation of an animal PET scanner at the university hospital ”rechts der Isar” , Munich, Germany - Prof Sibylle Ziegler (2006)
- Data analysis of water levels of the Baltic Sea at the Leibnitz Institute for Baltic Sea Research, Warnemünde, Germany - Dr Torsten Seifert (2005)

EDUCATION

MicroMasters in Statistics and Data Science 2020 - 2021

Massachusetts Institute of Technology / MITx, Cambridge, MA, USA

Ph.D. in Physics 2010 - 2015

Heidelberg University, Heidelberg, Germany

Diploma in Physics 2004 - 2009

Technical University of Munich, Munich, Germany

HONORS & AWARDS

Helmsley Fellowship, Helmsley Charitable Trust 2017

66th Lindau Nobel Laureate Meeting, Participant 2016

Excellence Award, Max Planck Society 2010

Oskar Karl Forster Scholarship, Technical University of Munich 2009

Study Career Scholarship, Technical University of Munich 2008

PRESENTATIONS

| | |
|---|------|
| Junior Scientist Workshop on Biological Optical Microscopy (<i>invited</i>), Janelia Research Campus, Ashburn, United States of America | 2019 |
| Transcription Seminar (<i>invited</i>), Albert Einstein College of Medicine New York, United States of America | 2019 |
| Microscopy Seminar (<i>invited</i>), Havard Medical School Boston, United States of America | 2019 |
| Microscopy Lunch Seminar (<i>invited</i>), UMass Medical School Worcester, United States of America | 2019 |
| Single Biomolecules Meeting , Cold Spring Harbor Laboratories Cold Spring Harbor, United States of America | 2018 |
| NIH Light Microscopy Interest Group Seminar (<i>invited</i>), Bethesda, United States of America | 2018 |
| Chan Zuckerberg Initiative Imaging Workshop (<i>invited</i>), CZ Biohub San Francisco, United States of America | 2017 |
| Chesapeake Bay Area Single Molecule Biology Meeting , Baltimore, United States of America | 2017 |
| Frontiers in Imaging Science Conference , Ashburn, United States of America | 2017 |
| Single Molecule Biophysics Conference , Aspen, United States of America | 2017 |
| Labeling and Nanoscopy Conference , Heidelberg, Germany | 2016 |
| MPiBpc Campus Seminar (<i>invited</i>), Göttingen, Germany | 2016 |
| NCI Departmental Seminar (<i>invited</i>), Bethesda, United States of America | 2016 |
| Departmental Seminar (<i>invited</i>), Wyss Institute at Havard University, | 2016 |

| | | |
|-----------|---|--------------|
| | Boston, United States of America | |
| | Lunch Talk (<i>invited</i>), Havard, Cambridge, United States of America | 2016 |
| | Biophysical Society Annual Meeting , Los Angeles, United States of America | 2016 |
| | Seeing Is Believing Symposium , Heidelberg, Germany | 2015 |
| | Deutsche Physikerinnen Tagung (<i>invited</i>), Göttingen, Germany | 2015 |
| | Annual meeting of the European Light Microscopy Initiative (ELMI) , Sitges, Spain | 2015 |
| | Focus On Microscopy (FOM) , Göttingen, Germany | 2015 |
| | PROSPECTS. First Plenary Meeting , Punta Negra, Majorca/Spain | 2010 |
| TEACHING | Fiji - Image Processing and Analysis Workshop (virtual workshop) Co-instructor, Turku Bioscience Centre, Turku, Finland | 2021 |
| | NIH FAES Image Processing and Analysis Workshop (virtual workshop) Co-instructor, National Institutes of Health, Bethesda, United States of America | 2021 |
| | NIH FAES Super Resolution Workshop (virtual workshop) Co-instructor, Foundation for Advanced Education in the Sciences (FAES) Bethesda, United States of America | 2021 |
| | Fiji Macros Programming (virtual workshop) Co-lead instructor, Janelia Research Campus, Ashburn, United States of America | 2020 |
| | DECODE for Single Molecule Localization Microscopy (virtual workshop) at the <i>From Image to Knowledge with ImageJ & Friends</i> conference Co-instructor, Janelia Research Campus, Ashburn, United States of America | 2020 |
| | NIH FAES Image Processing and Analysis workshop (virtual workshop) Teaching assistant, National Institutes of Health, Bethesda, United States of America | 2020 |
| | Open Science in Imaging and Microscopy (breakout session during a workshop) Lead instructor, Janelia Research Campus, Ashburn, United States of America | 2019 |
| | Advanced Imaging Techniques in Biomedical Sciences (summer intern journal club) Lead instructor, National Institutes of Health, Bethesda, United States of America | 2018 |
| | Introduction to microscopy (graduate course) Teaching assistant, University of Massachusetts Medical School, Worcester, United States of America | 2017 |
| | Optical Microscopy & Imaging in the Biomedical Sciences (summer intern journal club) Lead instructor, National Institutes of Health, Bethesda, United States of America | 2017 |
| | Advanced physics laboratory course for physics students (undergraduate course) Teaching assistant, Heidelberg University, Germany | 2011 |
| | Experimental Physics III: Optics (undergraduate course) Teaching assistant, University of Göttingen, Germany | 2011 |
| | Experimental Physics IV: Quantum, atomic and molecular physics (undergraduate course), Teaching assistant, University of Göttingen, Germany | 2010 |
| | Theoretical Physics I: Theoretical Mechanics (undergraduate course) Teaching assistant, Technical University of Munich, Germany | 2009 |
| | Theoretical Physics II: Electrodynamics (undergraduate course) Teaching assistant, Technical University of Munich, Germany | 2008 |
| MENTORING | Janelia Buddy Program for International Scientists | 2020-present |

| | | |
|-------------------------|--|----------------|
| | Focus: Facilitating the transition of international scientists to Janelia in partnership with Janelia's Human Resource Department Janelia Research Campus, Ashburn, United States of America | |
| | Mentoring of Postbac Students Focus: Navigating a scientific career Janelia Research Campus, Ashburn, United States of America | 2020-present |
| | Mentoring of PhD, College and Highschool Students Focus: Navigating a scientific career, how to work in an optics laboratory & in-depth support with individual research projects National Institutes of Health, Bethesda, United States of America | 2017-2018 |
| | Mentoring of PhD students and Master Students Focus: Navigating a scientific career, how to work in an optics laboratory & in-depth support with individual research projects Max Planck Institute for Biophysical Chemistry, Göttingen, Germany | 2010-2016 |
| CONFERENCE ORGANIZATION | Microscopy Club for North America , Co-organizer Ashburn, United States of America | 2021 - present |
| | OIG-ABG Educational Lectures , Co-organizer Ashburn, United States of America | 2021 - present |
| | OIG-MOIA Seminar Series , Co-organizer Ashburn, United States of America | 2020 - present |
| | Virtual Optical Interest Group (OIG) Seminar Series , Co-organizer Virtual seminar series with external speakers via Zoom during the COVID-19 lockdown Ashburn, United States of America | 2020 |
| | Imaging Africa Microscopy Club , Webinar support Ashburn, United States of America | 2020 |
| | Frontiers in Imaging Science Conference , Member of the local support team Ashburn, United States of America | 2019 |
| | Labeling and Nanoscopy Conference 2018 , Website and social media support Heidelberg, Germany | 2018 |
| | Division of International Services (DIS) Immigration Symposium , Co-organizer National Institutes of Health, Bethesda, United States of America | 2018 |

| CERTIFICATES & TRAINING | Data Analysis for Social Scientists A 11-week course by MITx to learn methods for harnessing and analyzing data to answer questions of cultural, social, economic, and policy interest. | 2020 |
| | Probability - The Science of Uncertainty and Data A 16-week course by MITx to build foundational knowledge of data science with an introduction to probabilistic models, including random processes and the basic elements of statistical inference. | 2020 |
| | Fierce Conversations program A 6-week course offered by Howard Hughes Medical Institute about Feedback, Confronta- | 2020 |

tion, Team, Delegation, Coaching and Accountability.

LabVIEW Core 2 2020
A certificate course offered by National Instruments about the LabVIEW basics.

LabVIEW Core 1 2020
A certificate course offered by National Instruments about the LabVIEW basics.

HBS Entrepreneurship Essentials 2020
Entrepreneurship Essentials is a 4-week, 30-hour online certificate program from Harvard Business School. Entrepreneurship Essentials introduces participants to the entrepreneurial journey from finding an idea to gaining traction in the marketplace to raising capital for a venture. Participants learn an overarching framework - People, Opportunity, Context, Deal - to evaluate opportunities, manage start-ups, and finance ventures.

HBS Management Essentials 2019
Management Essentials is an 8-week, 35-hour online certificate program from Harvard Business School. Management Essentials takes a distinctive, hands-on approach to management. Participants in this course learn to identify, understand, design, and shape critical organizational and managerial processes as a means of getting the work done.

HBS CORE (Credential of Readiness) 2019
CORE (Credential of Readiness) is a 150-hour certificate program on the fundamentals of business from Harvard Business School. CORE is comprised of three courses - Business Analytics, Economics for Managers, and Financial Accounting - developed by leading Harvard Business School faculty and delivered in an active learning environment based on the HBS signature case-based learning model.

Scientists Teaching Science 2018
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America (9-week online pedagogy course)

Research Mentor Training 2018
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America

Business of Science for Scientists 2018
by SciPhD at the National Cancer Institute in Shady Grove, United States of America

Chromatin, Epigenetics and Gene Expression Course 2018
at the Cold Spring Harbor Laboratory (CSHL) in Cold Spring Harbor, NY, United States of America, Course instructors: Prof Karen Adelman, Dr Luciano Di Croce, Prof Geeta Narlikar, Prof Ali Shilatifard

BioTech2: Recombinant DNA Methodology 2017
at the Foundation for Advanced Education in the Sciences at the NIH (FAES), Bethesda, United States of America

Management Bootcamp for Postdocs 2017
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America

Ethics in Research Training for Postdocs 2017
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America

Workplace Dynamic Series 2016
about Self-Awareness, Conflict & Feedback, Team Skills, Diversity In A Multicultural Society at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America
