SUMMARY	Physicist, microscope builder & data scientist with a passion for community building/engagement, outreach, and teaching: I have over ten years of experience in building and running advanced light microscopy systems, analyzing microscopy data, and developing image acquisition & analysis workflows. Furthermore, I am highly engaged in community building/engagement, outreach, and teaching activities focusing on community service, women/diversity in science, open science, and microscopy for more than 15 years.	
RESEARCH INTERESTS	<ul style="list-style-type: none"> • Microscope design, development, and application across a wide range of biological models • Development of image and data processing and analysis tools • Machine learning and its application in microscopic image analysis • Statistical methods for large datasets • Open software and hardware tools for imaging and microscopy 	
POSITIONS	<p>Research Specialist 2019 - present Janelia Research Campus, Advanced Imaging Center, Ashburn, VA, USA</p> <ul style="list-style-type: none"> • Handling and troubleshooting of advanced light microscopes (iPALM, Lattice Light Sheet Microscope, SiMView Light Sheet Microscope, Aberration Corrected Multifocal Microscope, MOSAIC, FIB-SEM, cryo-SIM, etc.), sample preparation and image analysis • Support of (inter)national visitors during technical consultations and their imaging sessions at the microscopes of Janelia's Advanced Imaging Center • Development and implementation of new image and data analysis strategies for users from around the world • Review of proposal drafts, proposals, and grants submitted to the Advanced Imaging Center • Design and realization of microscopy and data analysis workshops and conferences <p>Postdoctoral Research Fellow 2017 - 2018 National Institutes of Health, National Cancer Institute, Bethesda, MD, USA</p> <ul style="list-style-type: none"> • Design and construction a microscope for live-cell 5-color single-molecule transcription imaging in eukaryotic cells at high resolution in time and space to capture promoter-enhancer interactions • Development of advanced fluorescence labeling strategies for the genome based on dCas9 (CAS-FISH) • Computational modeling and data analysis of 4D genome data <p>Ph.D. Student 2010 - 2016 Max Planck Institute for Biophysical Chemistry, Göttingen, Germany Department of NanoBiophotonics (Prof. Dr. Stefan W. Hell) <i>Dissertation title:</i> "4Pi-RESOLFT nanoscopy" <i>Advisor:</i> Prof. Dr. Stefan W. Hell</p> <ul style="list-style-type: none"> • Design and construction of a 4Pi-RESOLFT nanoscope, including optical and acquisition system. Acquisition software was also developed. • System/sample testing and optimization <p>Master Student 2009 Max Planck Institute of Biochemistry, Martinsried/Munich, Germany Department of Molecular Structural Biology (Prof. Dr. Wolfgang Baumeister)</p>	

Dissertation title: “Correlative microscopy at liquid nitrogen temperature”

Advisors: Dr. Jürgen M. Plitzko, Prof. Dr. Wolfgang Baumeister

- Development and testing of a cryo transfer shuttle (CryoStage²) for the reliable transfer of amorphous frozen-hydrated samples from a fluorescence to an electron microscope for correlative microscopy
- Further development and testing of the software based on scale-invariant feature transform (SIFT) for the correlative microscopy approach

Undergraduate Researcher - various research assistant positions 2005 - 2008

- Evaluation of the mechanical properties of actin filaments in combination with different actin-binding proteins at the Physics Department of the Technical University of Munich, Germany - Prof Andreas Bausch (2008)
- Study of HEK cells with FLIC-microscopy at the Max Planck Institute of Biochemistry, Martinsried, Germany - Prof Peter Fromherz (2008)
- Analysis of Multi-SANS data (with MIRA) and data of Cytochrome C (with the Neutron Spin Echo RESEDA) at the Research Neutron Source Heinz Maier-Leibnitz (FRM II), Munich, Germany - Dr Robert Georgii and Prof Peter Böni (2007)
- Study of surfaces and DNA with an AFM at the Physics Department of the Technical University of Munich, Germany - Prof Thorsten Hugel (2006)
- Performance evaluation of an animal PET scanner at the university hospital ”rechts der Isar” , Munich, Germany - Prof Sibylle Ziegler (2006)
- Data analysis of water levels of the Baltic Sea at the Leibnitz Institute for Baltic Sea Research, Warnemünde, Germany - Dr Torsten Seifert (2005)

EDUCATION

MicroMasters in Statistics and Data Science 2020 - 2021

Massachusetts Institute of Technology / MITx, Cambridge, MA, USA

Ph.D. in Physics 2010 - 2015

Heidelberg University, Heidelberg, Germany

Diploma in Physics 2004 - 2009

Technical University of Munich, Munich, Germany

HONORS & AWARDS

Helmsley Fellowship, Helmsley Charitable Trust 2017

66th Lindau Nobel Laureate Meeting, Participant 2016

Excellence Award, Max Planck Society 2010

Oskar Karl Forster Scholarship, Technical University of Munich 2009

Study Career Scholarship, Technical University of Munich 2008

CERTIFICATES & TRAINING	Machine Learning with Python: from Linear Models to Deep Learning	2021
	A 15-week in-depth introduction course by MITx to the field of machine learning, from linear models to deep learning and reinforcement learning, through hands-on Python projects.	
	Data Analysis for Social Scientists	2020
	A 11-week course by MITx to learn methods for harnessing and analyzing data to answer questions of cultural, social, economic, and policy interest.	
	Probability - The Science of Uncertainty and Data	2020
	A 16-week course by MITx to build foundational knowledge of data science with an introduction to probabilistic models, including random processes and the basic elements of statistical inference.	
	Fierce Conversations program	2020
	A 6-week course offered by Howard Hughes Medical Institute about Feedback, Confrontation, Team, Delegation, Coaching and Accountability.	
	LabVIEW Core 2	2020
	A certificate course offered by National Instruments about the LabVIEW basics.	
	LabVIEW Core 1	2020
	A certificate course offered by National Instruments about the LabVIEW basics.	
	HBS Entrepreneurship Essentials	2020
	Entrepreneurship Essentials is a 4-week, 30-hour online certificate program from Harvard Business School. Entrepreneurship Essentials introduces participants to the entrepreneurial journey from finding an idea to gaining traction in the marketplace to raising capital for a venture. Participants learn an overarching framework - People, Opportunity, Context, Deal - to evaluate opportunities, manage start-ups, and finance ventures.	
	HBS Management Essentials	2019
	Management Essentials is an 8-week, 35-hour online certificate program from Harvard Business School. Management Essentials takes a distinctive, hands-on approach to management. Participants in this course learn to identify, understand, design, and shape critical organizational and managerial processes as a means of getting the work done.	
	HBS CORE (Credential of Readiness)	2019
	CORE (Credential of Readiness) is a 150-hour certificate program on the fundamentals of	

business from Harvard Business School. CORE is comprised of three courses - Business Analytics, Economics for Managers, and Financial Accounting - developed by leading Harvard Business School faculty and delivered in an active learning environment based on the HBS signature case-based learning model.
