SUMMARY	Physicist, optical scientist & data scientist with a passion for community building/engagement, outreach, and teaching: I have over ten years of experience designing, building, and running advanced optical systems, analyzing (microscopy) data, and developing (image) acquisition & analysis workflows. Furthermore, I have been highly engaged in community building/engagement, outreach, and teaching activities focusing on community service, women/diversity in science, open science, and optics/microscopy for more than 15 years.	
RESEARCH INTERESTS	<ul style="list-style-type: none"> • Optics and photonics, particularly involving imaging, microscopy, and optical metrology • Instrument design, development, and application across a wide range of applications (from the life sciences to the physical sciences) • Development of image and data processing and analysis tools • Machine learning and its application in (microscopic) image and data analysis • Statistical methods for large datasets • Open software and hardware tools for imaging, microscopy, and optical metrology 	
POSITIONS	<p>Optical Scientist & Project Team Lead 2022 - present Corporate Research & Technology, Carl Zeiss AG, Oberkochen, Germany</p> <ul style="list-style-type: none"> • Project team lead of a development team within the Corporate Research & Technology (CRT) section at Carl Zeiss AG, working on new tools for imaging, microscopy, & optical metrology • Review and unlock the latest optical trends in imaging, microscopy, & optical metrology • Strong collaboration with internal and external partners • Design and construction of early optical demonstrators/prototypes and their respective control and analysis schemes <p>Research Specialist 2019 - 2021 Janelia Research Campus, Ashburn, VA, USA</p> <ul style="list-style-type: none"> • Design, construction, modification, and troubleshooting of advanced optical systems (iPALM, Lattice Light Sheet Microscope, SiMView Light Sheet Microscope, Aberration Corrected Multifocal Microscope, MOSAIC, FIB-SEM, cryo-SIM, etc.) • Support of (inter)national scientists with their imaging experiments via technical consultations and during their data acquisition at the instruments of Janelia's Advanced Imaging Center (AIC) and Janelia's Light Microscopy Core, and at various other imaging modalities on campus • Troubleshooting of sample preparation • Development and implementation of new image and data analysis strategies for Janelians and users from around the world • Review of proposal drafts and proposals submitted to the Advanced Imaging Center • Design and realization of microscopy and data analysis workshops, symposia, and conferences <p>Postdoctoral Research Fellow 2017 - 2018 National Institutes of Health, National Cancer Institute, Bethesda, MD, USA</p> <ul style="list-style-type: none"> • Design and construction of a microscope for live-cell 5-color single-molecule transcription imaging in eukaryotic cells at high resolution in time and space to capture promoter-enhancer interactions • Development of advanced fluorescence labeling strategies for the genome based on dCas9 (CAS-FISH) • Computational modeling and data analysis of 4D genome data 	

	Ph.D. Student Max Planck Institute for Biophysical Chemistry, Göttingen, Germany Department of NanoBiophotonics (Prof. Dr. Stefan W. Hell) <i>Dissertation title:</i> “4Pi-RESOLFT nanoscopy” <i>Advisor:</i> Prof. Dr. Stefan W. Hell <ul style="list-style-type: none"> • Running of various imaging experiments (samples: block copolymers, synaptic vesicles) on an isoSTED microscope • Design and construction of a two-color STED microscope • Design and construction of a 4Pi-RESOLFT nanoscope, including optical and acquisition system. • Development of acquisition software • System/sample testing and optimization 	2010 - 2016
	Master Student Max Planck Institute of Biochemistry, Martinsried/Munich, Germany Department of Molecular Structural Biology (Prof. Dr. Wolfgang Baumeister) <i>Dissertation title:</i> “Correlative microscopy at liquid nitrogen temperature” <i>Advisors:</i> Dr. Jürgen M. Plitzko, Prof. Dr. Wolfgang Baumeister <ul style="list-style-type: none"> • Development and testing of a cryo transfer shuttle (CryoStage²) for the transfer of amorphous frozen-hydrated samples from a fluorescence to an electron microscope for correlative microscopy • Further development and testing of the software based on scale-invariant feature transform (SIFT) for the correlative microscopy approach 	2009
	Undergraduate Researcher - various research assistant positions <ul style="list-style-type: none"> • Evaluation of the mechanical properties of actin filaments in combination with different actin-binding proteins at the Physics Department of the Technical University of Munich, Germany - Prof Andreas Bausch (2008) • Study of HEK cells with FLIC-microscopy at the Max Planck Institute of Biochemistry, Martinsried, Germany - Prof Peter Fromherz (2008) • Analysis of Multi-SANS data (with MIRA) and data of Cytochrome C (with the Neutron Spin Echo RESEDA) at the Research Neutron Source Heinz Maier-Leibnitz (FRM II), Munich, Germany - Dr. Robert Georgii and Prof Peter Böni (2007) • Study of surfaces and DNA with an AFM at the Physics Department of the Technical University of Munich, Germany - Prof Thorsten Hugel (2006) • Performance evaluation of an animal PET scanner at the university hospital “Rechts der Isar”, Munich, Germany - Prof Sibylle Ziegler (2006) • Data analysis of water levels of the Baltic Sea at the Leibnitz Institute for Baltic Sea Research, Warnemünde, Germany - Dr. Torsten Seifert (2005) 	2005 - 2008
EDUCATION	MicroMasters in Statistics and Data Science Massachusetts Institute of Technology / MITx, Cambridge, MA, USA	2020 - 2021
	Ph.D. in Physics Heidelberg University, Heidelberg, Germany	2010 - 2015
	Diploma in Physics Technical University of Munich, Munich, Germany	2004 - 2009
HONORS & AWARDS	Leadership Academy Fellowship , German Scholars Organization e.V., Fellow Helmsley Fellowship , Helmsley Charitable Trust, Fellow 66th Lindau Nobel Laureate Meeting , Participant Excellence Award , Max Planck Society, Fellow Oskar Karl Forster Scholarship , Technical University of Munich, Grantee Study Career Scholarship , Technical University of Munich, Fellow	2023 2017 2016 2010 2009 2008

TEACHING

"Widening the Lens" Program - Fall Semester (virtual workshop) Lecturer, Vanderbilt University School of Engineering Nashville, TN, United States of America	2022
7th Max Planck Symposium for Alumni and Early Career Researchers Lecturer, Max Planck Society Berlin, Germany	2022
"Women in Imaging" Bootcamp (virtual workshop) Lecturer, University of California, Berkeley Berkeley, CA, United States of America	2022
"Widening the Lens" Program - Spring Semester (virtual workshop) Lecturer, Vanderbilt University School of Engineering Nashville, TN, United States of America	2022
NIH FAES Imaging - From IF & FISH to Automated & Confocal Microscopy (virtual workshop), Instructor of the Image Analysis Bootcamp, National Institutes of Health, Bethesda, United States of America	2021
Fiji Image Processing and Analysis Workshop (virtual workshop) Instructor of the Superresolution Data Handling Module, Turku Bioscience Centre, Turku, Finland	2021
NIH FAES Super Resolution Workshop (virtual workshop) Instructor, Foundation for Advanced Education in the Sciences (FAES) Bethesda, United States of America	2021 - 2022
Fiji Macros Programming (virtual workshop) Instructor, Janelia Research Campus, Ashburn, United States of America	2020
DECODE for Single Molecule Localization Microscopy (virtual workshop) at the <i>From Image to Knowledge with ImageJ & Friends</i> conference Instructor, Janelia Research Campus, Ashburn, United States of America	2020
NIH FAES Image Processing and Analysis workshop (virtual workshop) Instructor, National Institutes of Health, Bethesda, United States of America	2019 - 2021
Open Science in Imaging and Microscopy (breakout session during a workshop) Instructor, Janelia Research Campus, Ashburn, United States of America	2019
Advanced Imaging Techniques in Biomedical Sciences (summer intern journal club) Instructor, National Institutes of Health, Bethesda, United States of America	2018
Introduction to microscopy (graduate course) Teaching assistant, University of Massachusetts Medical School, Worcester, United States of America	2017
Optical Microscopy & Imaging in the Biomedical Sciences (summer intern journal club) Instructor, National Institutes of Health, Bethesda, United States of America	2017
Advanced physics laboratory course for physics students (undergraduate course) Teaching assistant, Heidelberg University, Germany	2011
Experimental Physics III: Optics (undergraduate course) Teaching assistant, University of Göttingen, Germany	2011
Experimental Physics IV: Quantum, atomic and molecular physics (undergraduate course), Teaching assistant, University of Göttingen, Germany	2010
Theoretical Physics I: Theoretical Mechanics (undergraduate course) Teaching assistant, Technical University of Munich, Germany	2009
Theoretical Physics II: Electrodynamics (undergraduate course) Teaching assistant, Technical University of Munich, Germany	2008

MENTORING	Mentoring of Ph.D. and master's students	2022 - present
	Focus: Navigating an industry career, how to work in an optics laboratory & in-depth support of individual research projects Carl Zeiss AG, Oberkochen, Germany	
	Janelia Buddy Program for international scientists	2020 - 2021
	Focus: Facilitating the transition of international scientists to Janelia in partnership with Janelia's Human Resource Department Janelia Research Campus, Ashburn, United States of America	
	Mentoring of postbac students	2020 - 2021
	Focus: Navigating a scientific career Janelia Research Campus, Ashburn, United States of America	
CONFERENCE ORGANIZATION	Mentoring of Ph.D., college, and high school students	2017 - 2018
	Focus: Navigating a scientific career, how to work in an optics laboratory & in-depth support with individual research projects National Institutes of Health, Bethesda, United States of America

CERTIFICATES &
TRAINING

HBS Disruptive Strategy	2022
Disruptive Strategy is a 6-week, 30-hour online certificate program from Harvard Business School Online. It helps students become fluent in disruption theory and gain confidence in articulating complex viewpoints, apply strategic frameworks to assess new opportunities and potential threats, and acquire techniques for executive-level strategy formulation and team management.	
Fundamentals of Statistics	2021
An 18-week in-depth introduction course by MITx to develop and understand fundamental statistical principles on firm mathematical grounds starting from the construction of estimators and tests, as well as an analysis of their asymptotic performance.	
Leadership Principles for Scientists, Engineers, and Researchers	2021
A four-month and four-course online program from MIT that empowers engineers, scientists, and researchers with the leadership insight needed to solve problems, innovate, and drive change.	
Machine Learning with Python: from Linear Models to Deep Learning	2021
A 15-week in-depth introduction course by MITx to the field of machine learning, from linear models to deep learning and reinforcement learning, through hands-on Python projects.	
Data Analysis for Social Scientists	2020
An 11-week course by MITx to learn methods for harnessing and analyzing data to answer questions of cultural, social, economic, and policy interest.	
Probability - The Science of Uncertainty and Data	2020
A 16-week course by MITx to build foundational knowledge of data science with an introduction to probabilistic models, including random processes and the essential elements of statistical inference.	
Fierce Conversations program	2020
A 6-week course offered by Howard Hughes Medical Institute about Feedback, Confrontation, Team, Delegation, Coaching, and Accountability.	
LabVIEW Core 2	2020
A certificate course offered by National Instruments about the LabVIEW basics.	
LabVIEW Core 1	2020
A certificate course offered by National Instruments about the LabVIEW basics.	
HBS Entrepreneurship Essentials	2020
Entrepreneurship Essentials is a 4-week, 30-hour online certificate program from Harvard Business School. Entrepreneurship Essentials introduces participants to the entrepreneurial journey from finding an idea to gaining traction in the marketplace to raising capital for a venture. Participants learn an overarching framework - People, Opportunity, Context, Deal - to evaluate opportunities to manage start-ups and finance ventures.	
HBS Management Essentials	2019
Management Essentials is an 8-week, 35-hour online certificate program from Harvard Business School. Management Essentials takes a distinctive, hands-on approach to management. Participants in this course learn to identify, understand, design, and shape critical organizational and managerial processes to get the work done.	
HBS CORE (Credential of Readiness)	2019
CORE (Credential of Readiness) is a 150-hour certificate program on business fundamentals from Harvard Business School. The CORE is comprised of three courses - Business	

Analytics, Economics for Managers, and Financial Accounting - developed by leading Harvard Business School faculty and delivered in an active learning environment based on the HBS signature case-based learning model.

Scientists Teaching Science	2018
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America (9-week online pedagogy course)	
Research Mentor Training	2018
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America	
Business of Science for Scientists	2018
by SciPhD at the National Cancer Institute in Shady Grove, United States of America	
Chromatin, Epigenetics and Gene Expression Course	2018
at the Cold Spring Harbor Laboratory (CSHL) in Cold Spring Harbor, NY, United States of America, Course instructors: Prof Karen Adelman, Dr Luciano Di Croce, Prof Geeta Narlikar, Prof Ali Shilatifard	
BioTech2: Recombinant DNA Methodology	2017
at the Foundation for Advanced Education in the Sciences at the NIH (FAES), Bethesda, United States of America	
Management Bootcamp for Postdocs	2017
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America	
Ethics in Research Training for Postdocs	2017
at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America	
Workplace Dynamic Series	2016
about Self-Awareness, Conflict & Feedback, Team Skills, Diversity In A Multicultural Society at the Office of Intramural Training and Education (OITE) at the National Institutes of Health, Bethesda, United States of America
